

****CANCELLED**** Caffeine: Friend and Foe Lecture

Event Date:

Thu, Aug 16, 2012

****THIS PROGRAM HAS BEEN CANCELLED****

Beth Burrous, Biochemist and USBG Volunteer

Caffeine has been called the most popular drug in the world. Why do plants have caffeine? How have people used these plants throughout the ages? Come learn the answers to these and other questions about plants that hail from Africa, the Americas and Asia. We will discuss the latest research on caffeine's beneficial and harmful effects on people, plants and insects. Samples of caffeine-containing foods will be provided.

Code: LH081612

Date: Thursday, August 16

Time: 12 p.m. to 1 p.m.

Location: Conservatory Classroom
